

School Council

Wednesday

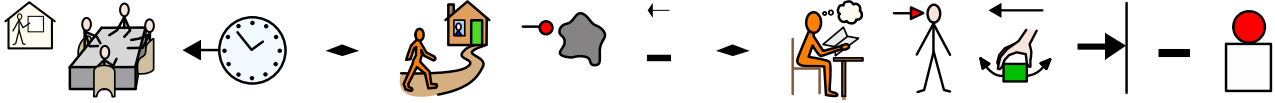

14th

November

2018

2018

School Council had a visitor. It was a student who used to be on

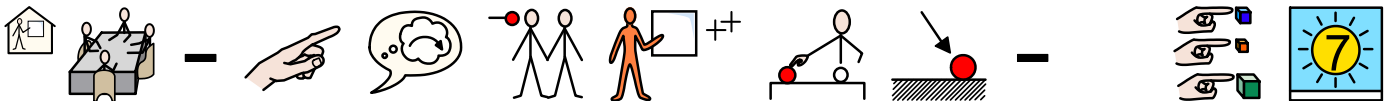

School Council. He talked to us about having a service dog. The dog helps

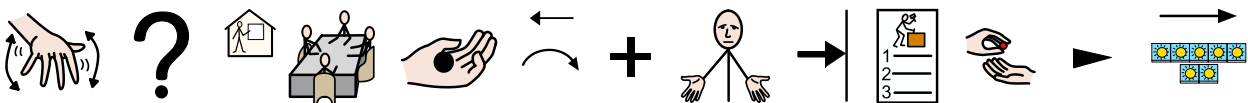

him cross the road and stay calm when angry. Next week we are going to watch a video of

a student who has trained their own dog.

School Council are going to remind their teachers that there are emails each week

about what School Council has done and need to plan for the next week.

David is to email the Police again and ask when School Council can meet them.

Alison is sorting out things for the playground.

David talked about age ratings for video games. This is something that

School Council will talk about again.
