Tresco Tutor Group have been looking at situations where they have been brave as part of the Children's Mental Health Awareness week. Shauna was brave when she had an injection, Jack when he camped out for the Jubilee Walk and was away from home for the night, and Kyran for getting wet and muddy during the Jubilee Walk training. Kieran is brave when he is around balloons, and Harley when the fire alarm goes off. Here are examples of their work.

We also talked about team work and sharing and here are some photographs to demonstrate our understanding.
