

Warmley Park School and College

Aspire, Believe, Enhance, Achieve

Newsletter No: 33 – 27th November 2020

It's been an 'Arty' kind of Week

Coriander students created some stunning snowy landscapes and wrote a description on how cold they were feeling!

The Pottery Intervention Session was getting into the festive spirit by creating some very delicate decorations.

Tarragon and Thyme students enjoyed the sensory feeling of having their feet painted, we will be using these footprints to create snowmen!

Watch out, watch out, Jack Frost is about! Ladybirds have embraced the change of weather this week and wrapped up in their warm layers to explore the frosty field. The children were fascinated by the melting ice and the frozen spiders' webs...brrr!

This week, Tarragon students focused on a new maths topic including doubling and halving items and numbers. Students used Numicon, blocks, counters and pegs to help them with their work. Well done everyone, you all worked very hard.

Do you want to use your skills to improve education for children? Become a school governor and see the impact your decisions can have. Warmley Park School and College is looking for a volunteer parent governor to join their governing body. School governors have a varied and important role, helping the school run effectively.

They have 3 core functions:

- Planning the strategic direction of the school
- Overseeing financial performance of the school and ensuring money is well spent
- Holding the headteacher or school leadership to account.

Governors don't get involved with the day to day running of a school, instead supporting and challenging the school's leadership team to drive school improvement. If you would like to be part of our governing body, please send an email to Alison.cottam@warmleyparkschool.org.uk registering your interest by Tuesday 1st December. Thank you.
